Scrub Bug™

Highly-Efficient Synthetic Turf Scrubber

The **Scrub Bug™** is a pedigreed pure-blooded scrubbing machine, designed to remove paint from synthetic turf. Its unique counter-rotating scrubbing flat brush design ensures efficient, thorough agitation of paint from both sides of each turf blade, with minimum wear and tear, time and expense.

FEATURES INCLUDE:

- 5 HP Honda GC powered hydraulic brush drive
- Dual 8-inch diameter counter-rotating scrub brushes with adjustable height
- Brush assembly can be easily relocated from the front to either side of the chassis
- 10-inch diameter pneumatic front tires with solid castor rear wheels for easy handling
- Dimensions: 4 ft. long, 3.5 ft. wide, 3.5 ft. high
- Weight: 288 lbs.
