

Eco Chemical TempLine Playmaker Concentrate Grass Paint

PRODUCT DESCRIPTION

Playmaker Concentrate Grass Paint is an innovative paint system that mixes a two-part kit with water to make 5 gallons of bright paint. This product is ideal for line marking and logo painting on any type of natural grass field. One box of Playmaker contains two kits, with each kit producing 5 gallons of paint. Each box of TempLine Playmaker concentrate produces 10 gallons of natural grass marking paint at a shipping weight of only 26 lbs. Playmaker Concentrate delivers performance expected of a quality athletic field paint:

In addition, it is our most environmentally sustainable product:

- Small package size is ideal for limited storage.
- One box of paint is equivalent to 75 aerosol cans, without toxic propellants.
- Waterborne technology means low VOCs and easy clean up with soap and water.
- Recyclable cardboard box reduces almost all packaging waste.
- Highly concentrated product reduces shipping costs.

Surface types: Great for any type of natural grass field.

Color options: Available in 10 standard colors and white.

APPLICATION INSTRUCTIONS

1. Make sure the field surface is clean, dry and free of debris. Pre-test product on an inconspicuous area.
2. Air and surface temperature should be between 45° - 95° F.
3. Product is best applied with a high-pressure airless line-stripping machine, but can also be applied with roller or brush. If using sprayer, recommended tip size for 4" lines: 317 or 319.
4. Fill a clean, empty 5-gallon pail half full of water.
5. Use a drill with a mixing attachment to slowly incorporate the powder in Bag A, into the water.
6. Add liquid in Bag B into the bucket while mixing.
7. Add water to the bucket until the level of paint is roughly two inches from the top of the bucket.
8. Mix the full bucket of paint until it appears smooth and fully incorporated.
9. Let the paint stand for 30 minutes.
10. Gently (to avoid adding air bubbles) mix for 30 seconds.

11. Load into sprayer and you are ready to paint.
12. Clean up equipment with water immediately after use.
13. Consult SDS and wear personal protective equipment before using product.

STORAGE

Close container after each use. KEEP FROM FREEZING.

DISPOSAL

Never pour leftover material down any drain or sink. Use up material on the job, or seal pail and store safely for future use. Do not incinerate closed containers. For specific disposal guidelines, contact your local waste management agency.
